WORK EXPERIENCE

Web Development, DrunkTales, Delhi

Apr 2023 - Aug 2024

- Developed over 20 responsive web applications using HTML, CSS, and Bootstrap, ensuring cross-browser compatibility and consistent rendering across multiple devices.
- Improved user engagement and experience by developing dynamic and interactive web features using JavaScript and jQuery for more than 15 projects, including DOM manipulation, event handling, and AJAX requests.
- Engineered 10+ complex single-page applications (SPAs) with ReactJS, focusing on creating modular and reusable UI components, and effectively managing application state using Redux and Context API.
- Enhanced web performance for 12 projects by implementing lazy loading, code splitting, and compressing CSS and JavaScript files using tools such as Webpack and Gulp, resulting in a 30% reduction in load times.

Data Analyst(Freelancer), Appen.com

Mar 2021 - Nov2022

- The work of our AI Community contributes to improving technology and the digital experiences of people around the world. Our AI Community works in our proprietary AI training platform handling all data types (text, images, audio, video and geo) across 500+ languages and dialects.

Web Developer, Simplifion, Delhi

Jan 2019 - Feb 2021

- Developed and maintained the company's website and application, resulting in a 30% increase in user engagement and a 25% improvement in page load speed.
- Ensured a smooth user experience and high-performance delivery, achieving a 98% uptime rate.
- Demonstrated excellent problem-solving skills, troubleshooting and debugging 100+ complex web applications.
- Proficient in HTML5 and CSS3 for front-end development, contributing to a 40% reduction in front-end related issues.

DMRC, Internship, Delhi

2018

- Assisted in the signaling and communication department, gaining exposure to server management and troubleshooting network issues for 50+ systems.
- Collaborated with a team to improve IT infrastructure, including server configurations and network setups for 100+ devices.
- Supported the IT team in maintaining and upgrading the server infrastructure for efficient operations, resulting in a 20% reduction in downtime.
